SOFTWARE ENGINEER

Software Engineer with a broad knowledge of engineering and software technology and its application. Assist in the design, development, and sustenance of product systems or subsystems. Strictly adhere to time schedules and successfully accomplish engineering and organizational mission by completing related results as needed. Seeking a challenging role as a Software Developer in a progressive organization. I am dedicated and enthusiastic individual who is motivated to conquer all challenges and deliver results. Equipped with excellent organizational and leadership skills, and blessed with a unique ability to stand as an excellent team player

CAREER OBJECTIVES

To continue developing my career with a progressive global company where my experience, knowledge, capabilities, and performance along with the loyalty and affiliation atmosphere will assist me in making a major contribution to the company's productivity and profitability

COMMUNICATION

Strong proficiency for conveying ideas effectively and identifying the messages people are attempting to convey. I can speak clearly, convey positivity, attract people, collaborate and share responsibility. I have an exceptional ability to develop good long-term relationships, even with difficult people, built on tactful and considerate interactions. I excel at knowing the right thing to say to people and at understanding how people will accept what you are going to say to them. I have the ability for soliciting and accepting feedback and criticism from others.

TECHNOLOGY STACK

BACKEND DEVELOPMENT: *ASP.NET CORE RESTFUL API, NODEJS, MONGODB, EXPRESS, SQL SERVER, DOCKER, AZURE APP SERVICE, AWS SES, GRAPHQL.*

FRONTEND DEVELOPMENT: *ANGULARJS, REACTJS, ASP.NET MVC*
